NIPAM: Mr. Kundan Kumar: Webinar dated 16th February: MS Teams ; 11.00am-12.30pm

Shri Kundan Kumar, Assistant Controller from Patents and Designs from Boudhik Sampada Bhavan (Indian Patent Office), Antop Hill, presented a seminar on Intellectual Property Rights at Satish Pradhan Dnyanasadhana College, Thane on 16th February 2022 from 11.00am to 12.30 pm. The webinar was conducted under the aegis of National Intellectual Property Awareness Mission (NIPAM) to commemorate the 75th Anniversary of India's Independence under the banner of "Azadi ka Amrit Mahotsav" by Department for Promotion of Industry and Internal Trade (DIPP). The webinar was arranged by the IPR cell, Department of Accounting and Finance, Department of Business Law. The Dignitaries of this virtual Dias were President, Shri Satish Pradhan Saheb, Secretary, Shri Kamlesh Pradhan, Treasurer, Shri Satish Sheth and Principal, Dr. Bhushan Langi. Over 600 attendees were present in the webinar. The show was hosted by Advocate Suyash Pradhan (Head, Department of Business Law). The webinar began by introduction of the speaker Shri Kundan Kumar by Prof. Suyash Pradhan. Throughout the webinar Shri Kumar interacted with the students on various topics of Intellectual Property. Topics such as Patents, Designs, Trademarks, Copyright and Geographical Indications were covered. The meaning of Innovations was explained with help of examples. Innovations are incremental but make huge difference with respect to ease and comfort of usage. An umbrella can be converted to a handbag by mere design. More examples are a bag that slow cooks food and a bottle light bulb. Innovations turn problems into progress. Patents are form of IP that can protect inventions and Innovations. They are like other tangible properties in the sense that they can be licensed, mortgaged, assigned, or transferred.

Mr. Kumar also explained what Copyright is by giving an example of song from "Sairat". He explained what works are covered under copyright and what is their mechanism of protection. The difference between Trademark and Registered Trademark was also highlighted in addition to the importance of Trademarks to nation's economy. The famous examples of Nike, Macdonald's, Coca-Cola, Pizza Hut brought home the point. The Intellectual property of Traditional Knowledge (TK) is another form that needs protection. Every society has their own repository of Traditional knowledge which is passed on from generations together. In our society, the use of Haldi and Neem for antiseptic purpose is well documented. Any inventions arising from these are well scrutinised before they are granted protection. The biodiversity arising from a region contributes to the traditional knowledge. This repository of TK is mentioned on the website of the respective patent office of the nation for an interested person to access. Industrial designs are another form of protection that cultivate progress in society. For instance, design of smartphones, laptops, vehicles, and other such products evolve for the ease and comfort of usage. Without protection there will be no motivation in society for this kind of development where the centre of progress is human. Lastly, the use of Geographical Indications such as Kolhapuri Chappals, Solapur Chadders, Different kinds of Cheese, Rasgulla, and so on are protected to ensure that the consumer receives authentic goods. Mr. Kumar explained the ecosystem of how GI works.

The Webinar ended with Q & A session. The students interreacted with the speaker throughout the webinar. Prof. Shraddha Bhoume (Head and Vice-Principal) presented the vote of thanks. The programme was prescribed by the office of Hon. Joint Director.
