

SATISH PRADHAN DNYANASADHANA COLLEGE, THANE
(Arts, Science and Commerce)

Feedback on the Syllabus and its Transaction at the Institution from the Stakeholders

Feedback Process:

The feedback is collected from stakeholders on the curriculum. The Questionnaire was designed on various parameters like depth of syllabus, fundamentals knowledge required, its applicability and employability. The feedback was collected online through Google Form.

Feedback:

Students were satisfied with the depth, continuity of the curriculum of previous courses, inclusion of study tour, field visits, Hands-on experience. But expressed that current curriculum is inadequate to increase the employability.

The Alumni found the curriculum helpful in developing the skill sets and personality of the learners. They were satisfied with the special courses introduced in the curricula helpful to fetch the employment and ambitions of the learners.

Parents strongly expressed the need to address the skills required for employment while setting the curricula. They expressed the opinion that the curriculum should be market friendly.

The employers are satisfied with the basic fundamental knowledge of their employees gained during the learning period in the college. They expressed the need to incorporate some specific skills based on the curriculum.

Teachers found the curriculum framed by the University of Mumbai very much relevant and stress the need to include the latest skills for personality development and employability.

Feedback Analysis:

The feedback was collected and analysed by each department. The analysis is done in the form of graphically and tabular form.

The feedback is available on the website of the college.
