Descriptive Report of Certificate Course by Department of Commerce

Department of Commerce in collaboration with Bright Future NGO conducted a Certificate Course on Investor Education from 10th April 2023 to 20th April 2023.

The main objective of conducting this Certificate Course was:

1. To increase awareness about various aspects of Financial Market
2. To create awareness about investment in financial market, types of investment avenues, mutual funds, its types, role of SEBI in protection of investor's interest

The inaugural session of this Certificate Course was held on 10th April 2023 at 10am in A,V.Room. The inaugural session was attended by Dr.Sanjot Deuskar, Vice-Principal of Commerce stream and Mr.Kishor Palve, CEO & Founder of Bright Future NGO. Mr.Kishor Palve shared his journey from being a student of CEO. This talk set the ball rolling and inflicted confidence in the young students. Overall 284 students from FY/SYBCom had registered for the certificate course. These 243 Students from FY/SYBCom were present in the inaugural session and out of which 42 students appeared for interview conducted in second session.

The second session was conducted by Mr.Santosh Hulalkar, Zonal HR Manager, IIFL Insurance. Mr.Santosh gave students a survey form which was about openings IIFL office in the area where there was need. He had conducted a selection round for placing the intents in their company and offered intent letter to 22 students. This first round of selection ended at 5.30 pm and 42 students were benefitted by practical exposures to interviews.

On 11th April 2023, Dr.Manisha Bhingardive, from Department of Commerce of Satish Pradhan Dnyanasadhana College, Thane conducted a session and covered topics like classification of financial market, capital market and money market, organised and unorganised money market, primary market, secondary market, dematerialization, types of depositories, Role of SEBI in investors protection etc.

On 12th April 2023, Shiva Dubey, from Bright Future NGO, Thane conducted a session and covered topics like how to grab the investment opportunities in the market and explained about the assignment to be given to the students related to the topic of the course. Students were asked to do One community survey form the youngsters. This assignment was part of

Date: 08/09/2022	Revision: 01	SPDC/AC/F05
Name of Department/ Committee:	CS & IT	Term: I
Name of the Activity:	Python for Data Science	
Name of Collaborating agency/Organization:	ExcelR Solutions	

The Department of Computer Science and Information Technology of Satish Pradhan Dnyanasadhana College, Thane Collaboration with ExcelR Solutions had conducted a one month Add-on Course for students on “**Python for Data science**” from 16th May 2022 to 6th June 2022 by **IT/CS Department**

The objective of this course was “Student should able to create Professional “**Python Machine Learning Data Science Application**” near about total 286students had attended this Add-on Course. The total student registration was 301 and total 290 students was enroll in online exam and total 281 students got Certificate of this Course.

The Programme was held with the motive to provide students with an understanding of Python Machine Learning Application Development in the currentmarket scenario which are prevalent in the field of Advanced Data Science Development, with a view to build successful careers.

The Course Coordinator, Dr. Sujata Iyer and ,Asst.Prof. Trupti Kulkarni

FREE PROGRAM ON PYTHON FOR DATA SCIENCE

FROM INDUSTRY EXPERT
CLICK HERE TO REGISTER

Date: 16th May (Onwards 14 Days)

Time: 11AM to 2 PM (3 Hrs Per Day) .(42 Hours)

ExcelR, under their flagship "Everyday Learning Program" (EDL) proudly announces the next free Live Virtual training program on Python for Data Science for the duration of 42 hours, starting from 16th May 2022 from 11Am to 2Pm everyday, on weekdays. Students and Faculties are requested to register for this program and get a participation certificate from ExcelR for free.

Topic covered:

Python Introduction: Python IDEs and Jupyter notebook, Operators, Loops, Strings.

Dictionaries: Date & time-Time Tuple, calendar module and time module.

Functions: Define function, Calling function, Variables.

Data Handling: Loading, Storage, CSV, Excel, JSON, XML, data and web scraping, API example, HDF5 Format.

Numpy: Data Types, Basic Indexing, Mathematical and Statistical Methods.

Pandas: Introduction to pandas Data Structures, Data-Frame.

Data Wrangling: Combining and Merging Data, Sets, Merging on Index.

Data Visualization: Matplotlib, Seaborn.

Web Scraping: Overview, Practical Applications, Scraping the data from websites/social media.

What will you get:

- Life time access to LMS
- Assignments
- Digital Certificate of Participation

Who can attend?

Extremely useful for students from all streams, faculty, researchers, PG & PhD Scholars

Descriptive Report of the certificate course in Computational Mathematics.

The Department of Mathematics and Statistics organized an offline Certificate course on Computational

Mathematics from 16th January, 2023 to 3rd February, 2023. It was 30 hours duration course consisting of theory

and problem-solving sessions.

94 students registered and all of them successfully completed the course with examination and certification.

Objective of the course was to spread awareness of computational mathematics among Arts faculty students.

The basic computational mathematical tools are indispensable in modern day life. With this aim the learning

objective for this course includes:

Basic calculations of simple interest, compound interest. Calculation of Annuity, future and present value.

Calculations in Shares and Mutual Funds. Concept of Probability, Decision Theory.

The inauguration of the course was done by Head of the department of Mathematics and Statistics, Dr. Shubhada

Nyayte. She explained students the need of the course along with regular degree program

The course consisted of 5 modules with theory and practice sessions. Faculties from the department Mrs. Anjali

Deshpande, Prachi Bakle, Mrs. Mousami Patil, Dr. Sultana Begam and Mr. Mohit Sonawane were the resource

persons for the different modules of the certificate course.

Combination of multiple-choice questions and a subjective question test of 50 marks was conducted at the end

so that students can evaluate themselves. Feedback link was shared to students which gave us an insight to

update and to overcome our shortcomings and head towards betterment for our next course. Indeed, the course

was very participative, informative, useful and we sincerely hope that the course has motivated many

participants.

Acknowledgement

The Department of Mathematics and Statistics is very grateful to our honourable President Satish Pradhan,

Secretary Shri Kamlesh Pradhan, Joint Secretary Mrs. Manasi Pradhan, Treasurer Shri Satish Seth, Principal Dr

Ganesh Bhagure, Vice Principals and departmental colleagues for supporting us to conduct the certificate course.

On the first day Tie and Dye stitch less cloth bag - We taught them different methods of tie and dye technique and how to use it on a cotton cloth, On the second day, Sutali Pen stand - We made use of Sutali thread, paper cups and ice cream sticks to make a pen stand and decorate it with decorative materials found in one's home

Old diya decoration - We taught how an old diya can be converted into a paper weight or a centre piece, decorative diya by using Mould-it and paints. Old t-shirt painting - Taught how to convert and old t-shirt into a new one by teaching them dabbing and zen tangle painting technique on it with the help of sponge and tape, dot Mandala on plate - We taught the Dotting technique on a plate and the design was to be made in a mandala form. Dokra Jewellery - made necklaces, earrings with Mould-it and showed them different techniques to make the jewellery. Warli on Mug - Made an old mug into a new one by using the tape and dabbing technique on a mug and taught students how to paint traditional warli figures on a mug, paper lantern- Made a Handmade paper lantern using Fanfold technique, Canvas shoe painting - taught students how to paint on a shoe by combining previously taught techniques and adding truck art to it, decoupage on a glass bottle - taught students how to use a photo printout on a bottle by applying glue on the back and front of the image and merge it into the background with paints. Prof. Harshita Gurnani was the program coordinator for the course and Rishikesh Kamble NSS volunteer, helped in the process.

All these courses were repeated in the NSS rural camp from 12 January 2023 to 18 January 2023. All residential camp students were trained for the abovementioned activities during the camp

Date: 1.12.2022	Revision: 01 15..2022	SPDC/AC/F05
Name of Department:	Chemistry	Term: I / II
Name of the Activity:	CHEMISTRY LABORATORY TECHNIQUES	
Name of Collaborating agency/Organization:		

The Department of Chemistry organized an offline Certificate course on "CHEMISTRY LABORATORY TECHNIQUES" from 11 November 2022. It was of 30 hr duration course, consisting of theory, practical and industrial visit.

The certificate course was conducted in college from 11th November 2022. The duration of the course was 30 hours. 54 students successfully completed the course with examination and certification.

Inauguration of Certificate Course began with Dnyanasadhana Geet. Chief resource person for the certificate course, Principal Dr. G. R. Bhagure delivered a motivational talk on the importance of the certificate course on chemistry laboratory techniques along with their regular bachelor degree program, followed by Dr.

Shivani Banerjee - who gave a small glimpse of the course and encouraged the students to take part in the course and complete it. The course was divided into Ten modules with theory, practical and industrial visit components.

Departmental faculties, Dr. Shivani Banerjee, Dr. Kalpana Rathod, Dr. Ganesh Bhagure, Dr.

Sonali Kokane, Dr. Bhushan Langi, Ms. Farahat Khan, Ms. Sayali Kamble, Ms. Komal Sable, Ms. Saroj Joshi

, Mr. Aditya Khanna Mr. Sattu Chavan Dr Rani Patil were the resource persons for the various modules of the certificate course. All the resource persons gave us a new insight on day to day laboratory practicals, hands on instruments, their calibration, basic calculations in laboratory. Many Instrumentation, Flame photometry, pH metry, Colorimetry, Conductometry, were included in the curriculum. Industrial Visit to IRMRA industry was carried out on 26th November 2022, students got the first hand experience of working on various sophisticated

Summary of Course along with outcomes

Objective: The certificate course aimed to introduce undergraduate students to an interdisciplinary application of mathematical techniques in subjects apart from their university curriculum. These techniques were applied to different problems using computer programs.

The interdisciplinary certificate course: a computational method in physics, chemistry, and botany was designed for undergraduate students of physics, chemistry and botany. This certificate course was conducted during the week 18th – 23rd July 2022. During this course, we gave lectures to the participant students followed by hands-on exercises on lab computers based on the lectures. The course was started by an introductory lecture on Linux operating system followed by hands-on session. For the rest of the week, the students were introduced to basic mathematical techniques and their applications in subjects outside their curriculum. In the hands-on sessions, students learned applications and significance of these techniques by using computer programs. In the last session, students were introduced to basic statistical techniques required in their daily experimental work and data analysis.

At the end of the certificate course students got an exposure to the usefulness of these mathematical techniques outside their subject. The introduction to the Linux operating system and relevant applications gave them a new outlook. The whole motive of this course was to give students to a broad interdisciplinary perspective of mathematical and computing methods.

Brochure:

Greetings to all,

The departments of Botany, Chemistry, Physics, Computer Science and Information Technology are conducting a 30 hrs Add-on course: 'Computational Methods in Physics, Chemistry and Botany'.

The use of computational tools has become indispensable for modern day research. It could be storing and analysing data, doing statistics or using computational models. This course will introduce students to computational thinking and data literacy.

The learning objective for this course includes:

Students will learn to use the Linux operating system for graph plotting, elementary statistics etc.

Students will be introduced to simulation techniques
