

1.2.1

Number of Certificate/Value added courses offered and online courses of MOOCs, SWAYAM, NPTEL etc. (where the students of the institution have enrolled and successfully completed during the last five years)

DVV Comments

HEI is requested to kindly note that the courses that are part of the regular university curriculum should not be considered in this metric. Example. Digital Marketing, Fundamentals of Stock Market & Mutual Fund, English speaking or Spoken English and so on. Please relook and provide revise data accordingly.

HEI Response

Our institution has taken the initiative to create and offer skill-oriented Certificate Courses, including Digital Marketing, Fundamentals of Stock Market & Mutual Funds, English Speaking, or Spoken English, etc. These certificate/Add-on courses were developed independently of the standard university curriculum to equip students with industry-relevant skills and enhance their employability. While some course titles may seem similar to those listed in the university syllabus, the content of these Certificate Courses is intentionally curated to provide additional knowledge and specialized skill sets, thereby going beyond the university’s academic offerings.

HEI Provided the Following Documents for Verification

1.
- Details of Certificate/Add-On Course as per SOP.
2.
- The syllabus for these certificate/add-on courses, along with the University Syllabus for the programs of students enrolled in the respective Certificate Courses, confirms that the syllabus of the certificate course is completely different from the university curriculum.
3.
- List of certificate/add-on courses separated according to DVV comments, with the gap analysis explaining how the syllabus of the certificate courses differs from the regular university curriculum.
